

Your organization has a well-defined path with milestones toward achieving Net Zero. However, are your team members' mindsets aligned with the organization's goals?

For a successful transformation, it's essential to engage with team members and their families for the challenges humanity is facing and encourage the adoption of eco-friendly lifestyles. They must be engaged and involved as part of your journey to Net Zero.

English, Hindi and Marathi

Embracing an Eco-Friendly Lifestyle – For You, Your Family, and Your Teams

Inspiring Global Environmental Action for Net Zero Goals

This program is designed to motivate positive environmental actions among individuals, organizations, and communities worldwide, all in pursuit of achieving net zero goals. It encourages individuals to focus on:

- Understanding Ignorance
- Increasing Awareness
- Enhancing Engagement
- Actively Initiating Actions
- Finally, Integrating these Habits into Daily Life

Organization Access for Progress Monitoring

Access to the organization is available to oversee and track user progress, ensuring effective outcomes for the course and anticipated transformation.

Family Subscription

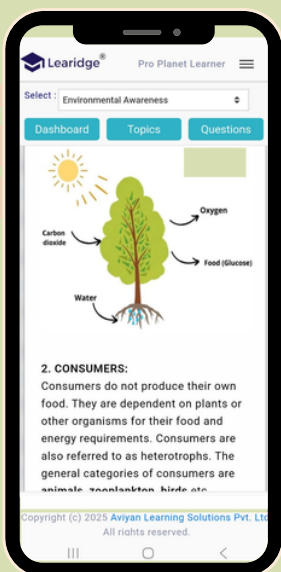

Access begins at ₹360 for an individual team member, with the option to add a family member for ₹180. Inclusive of all taxes. This grants six months of access.

Green Kaizen Net

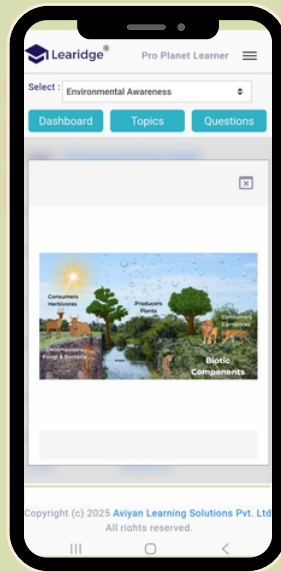

Enables the documentation of every action taken by members and their families in adopting an eco-friendly lifestyle, fostering active engagement and monitoring of results.

Reward and Recognition

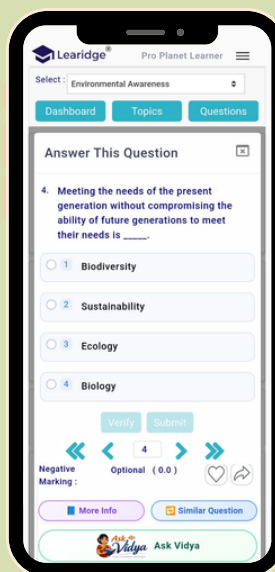

Organizations can implement reward and recognition programs that are driven by the initiatives taken by members and their families. This can significantly enhance morale and foster team encouragement.
