

Welcome to Learidge- The Learning Bridge! Hello!

Login Process

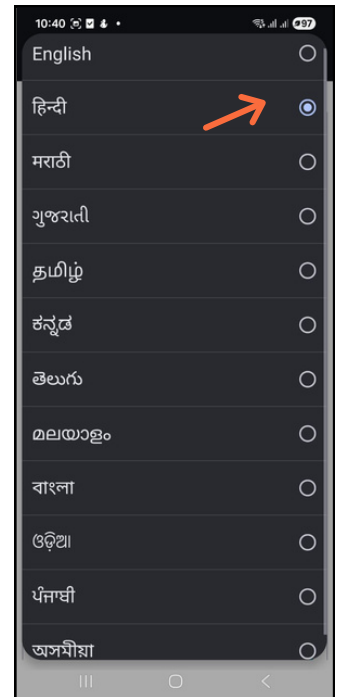

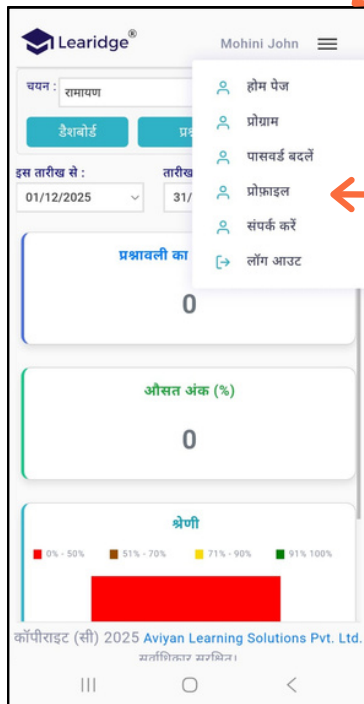

To use the app, first log in to the app using the QR code provided.

You can either scan the QR code or click on the QR code to access the app and start using it.

The app screens are usually displayed in the preferred language specified during your subscription, but if not, you can select your preferred language by following the steps on the next page.

If the app's screen is already in your preferred language, you can skip the option to change the language.

Changing language

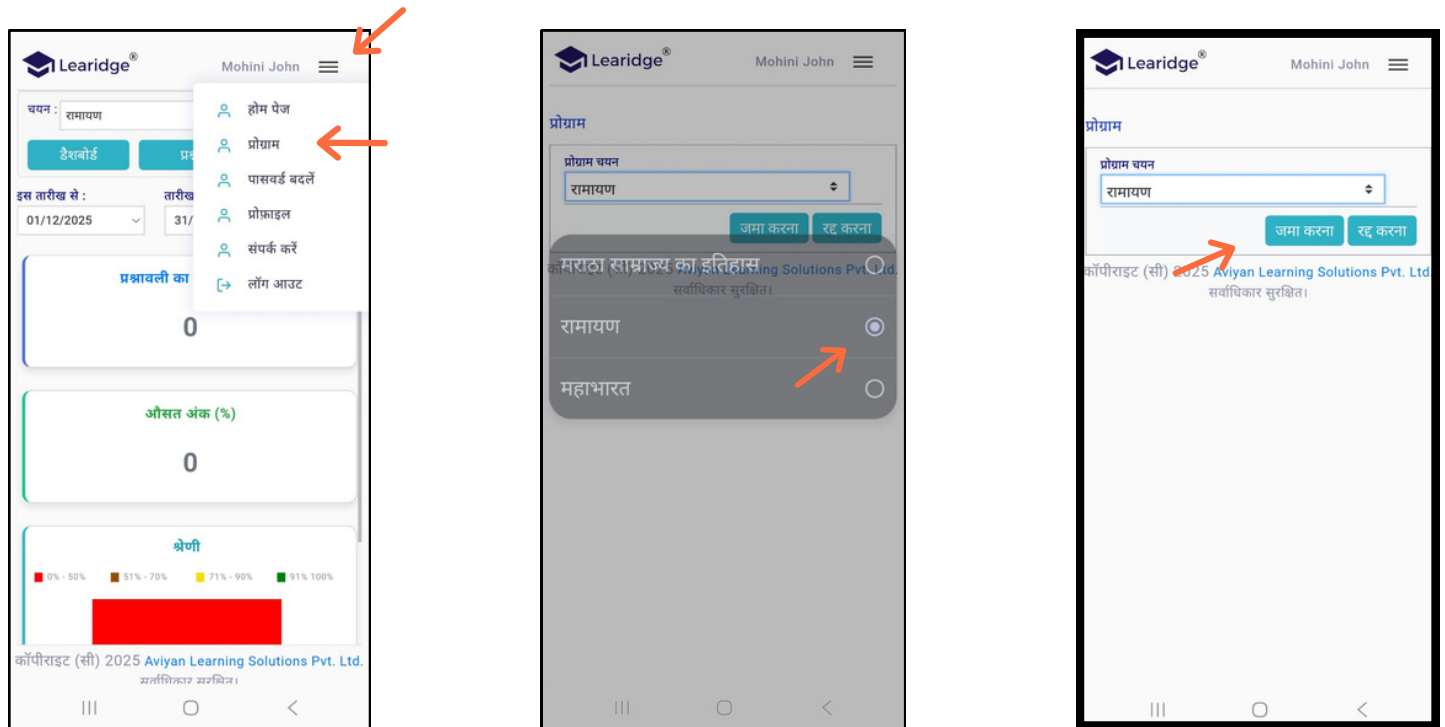

To change your preferred language, use the three-line icon next to your name and go to the Profile option. Go to the Preferred Language option that appears on the screen and select your desired language from the list of available languages.

After selecting the language, click the 'Save' button to save your selection. The entire app screen will appear in the selected language.

Changing language

Program selection

Open the menu by clicking on the three-line icon next to your name. This will show a list of the programs you are subscribed to. Now, select the program you want to study and click on the "Submit" button.

Choosing a program

Selection of Questionnaire Capsule

Follow the steps below to select a questionnaire capsule.

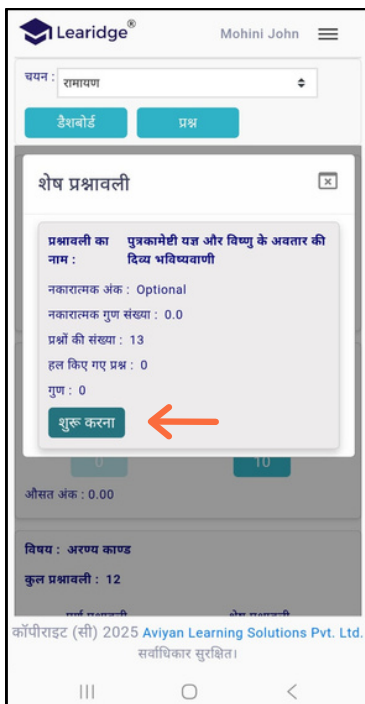

Click on the question button.

Then click on the remaining capsules buttons.

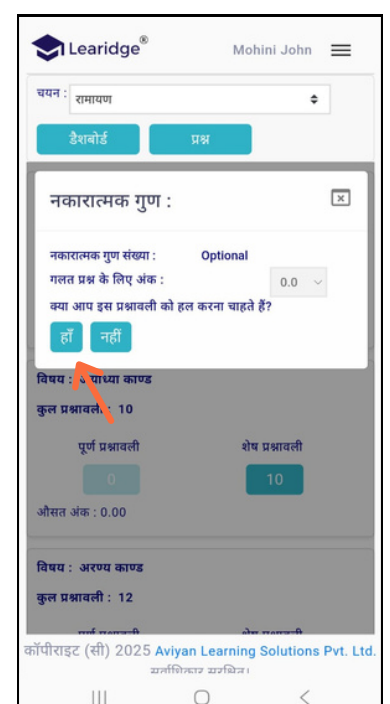

Select the remaining capsules of the required subtopic.

All information selected before starting will be displayed, you can click the "Start" button to begin.

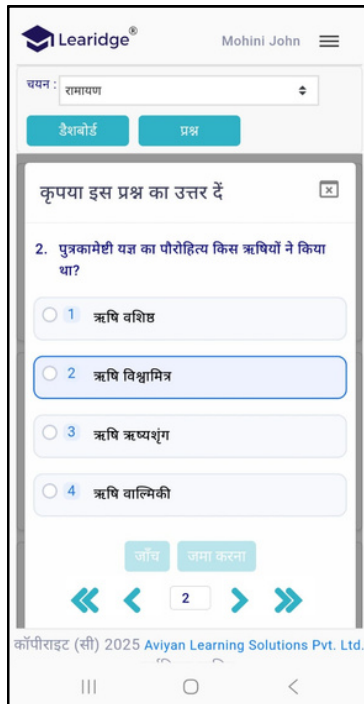

If you want to deduct your points for incorrect answers, you can do so here.

Select 'Yes' to start answering the questions.

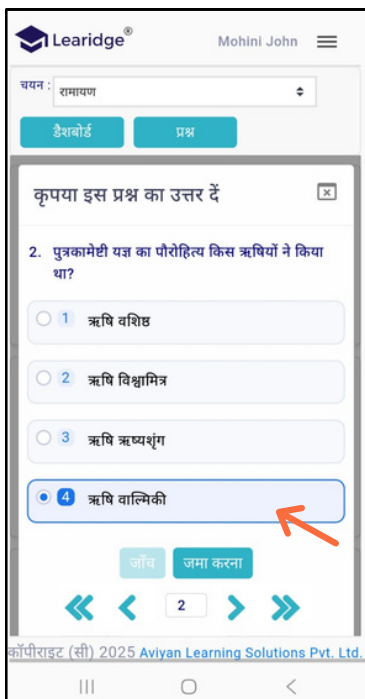

Choosing your Questionnaire Capsule

Solving questions

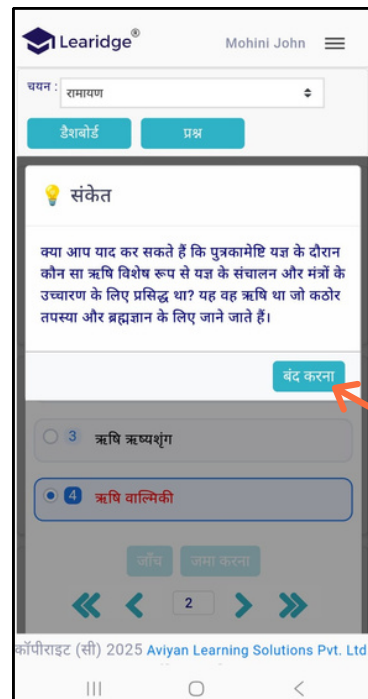

Your first question is shown. Each question has a question description and four options. Some questions may also have pictures along with the description.

You can also use our AI (Artificial Intelligence) to answer this question. Let's learn how to answer this question now.

Click on the correct option according to your opinion from the four options given.

If you get your answer wrong, don't worry, our AI (Ask Vidya) will give you a hint and give you a second chance to answer the question.

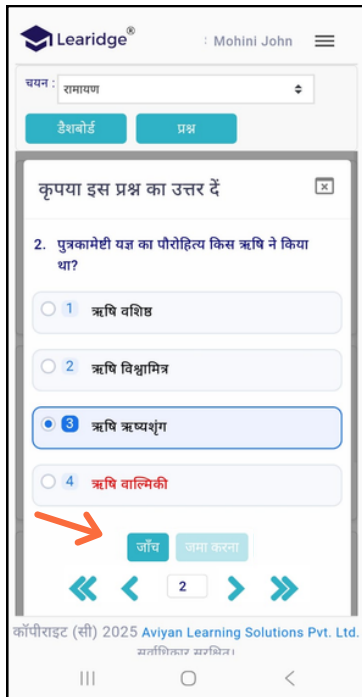

After using the hints, you can answer the question by clicking on the option you think is correct.

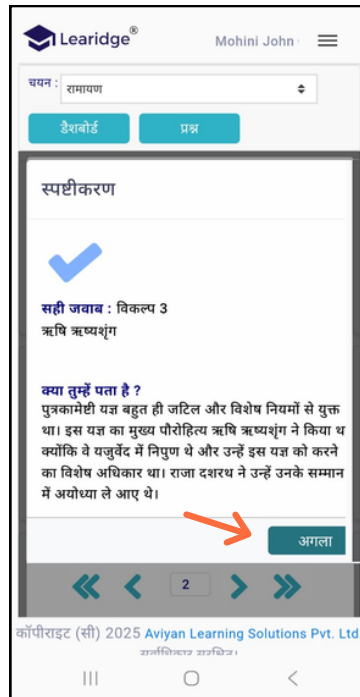

Click the "Submit" button to submit your answer. Once the answer is submitted, it cannot be changed.

Solving Questions

Confirm the answer and ask the next question.

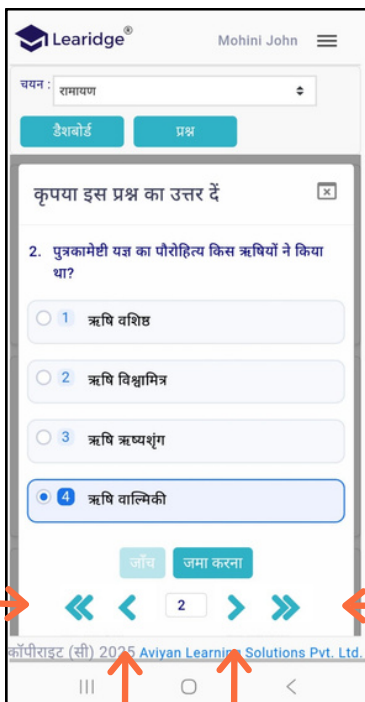

After submitting your answer, you can check it. Click the 'Check' button to confirm your answer.

The details of the correct answer will be given in the verification. After reading the details, click on the Next button.

Use the next arrow button to view the next question. Repeat this process to answer each question.

Use the arrow icons to view the next, previous, first, or last question.

If you are unable to answer all the questions at once due to lack of time, you can close it by clicking the "Close" button.

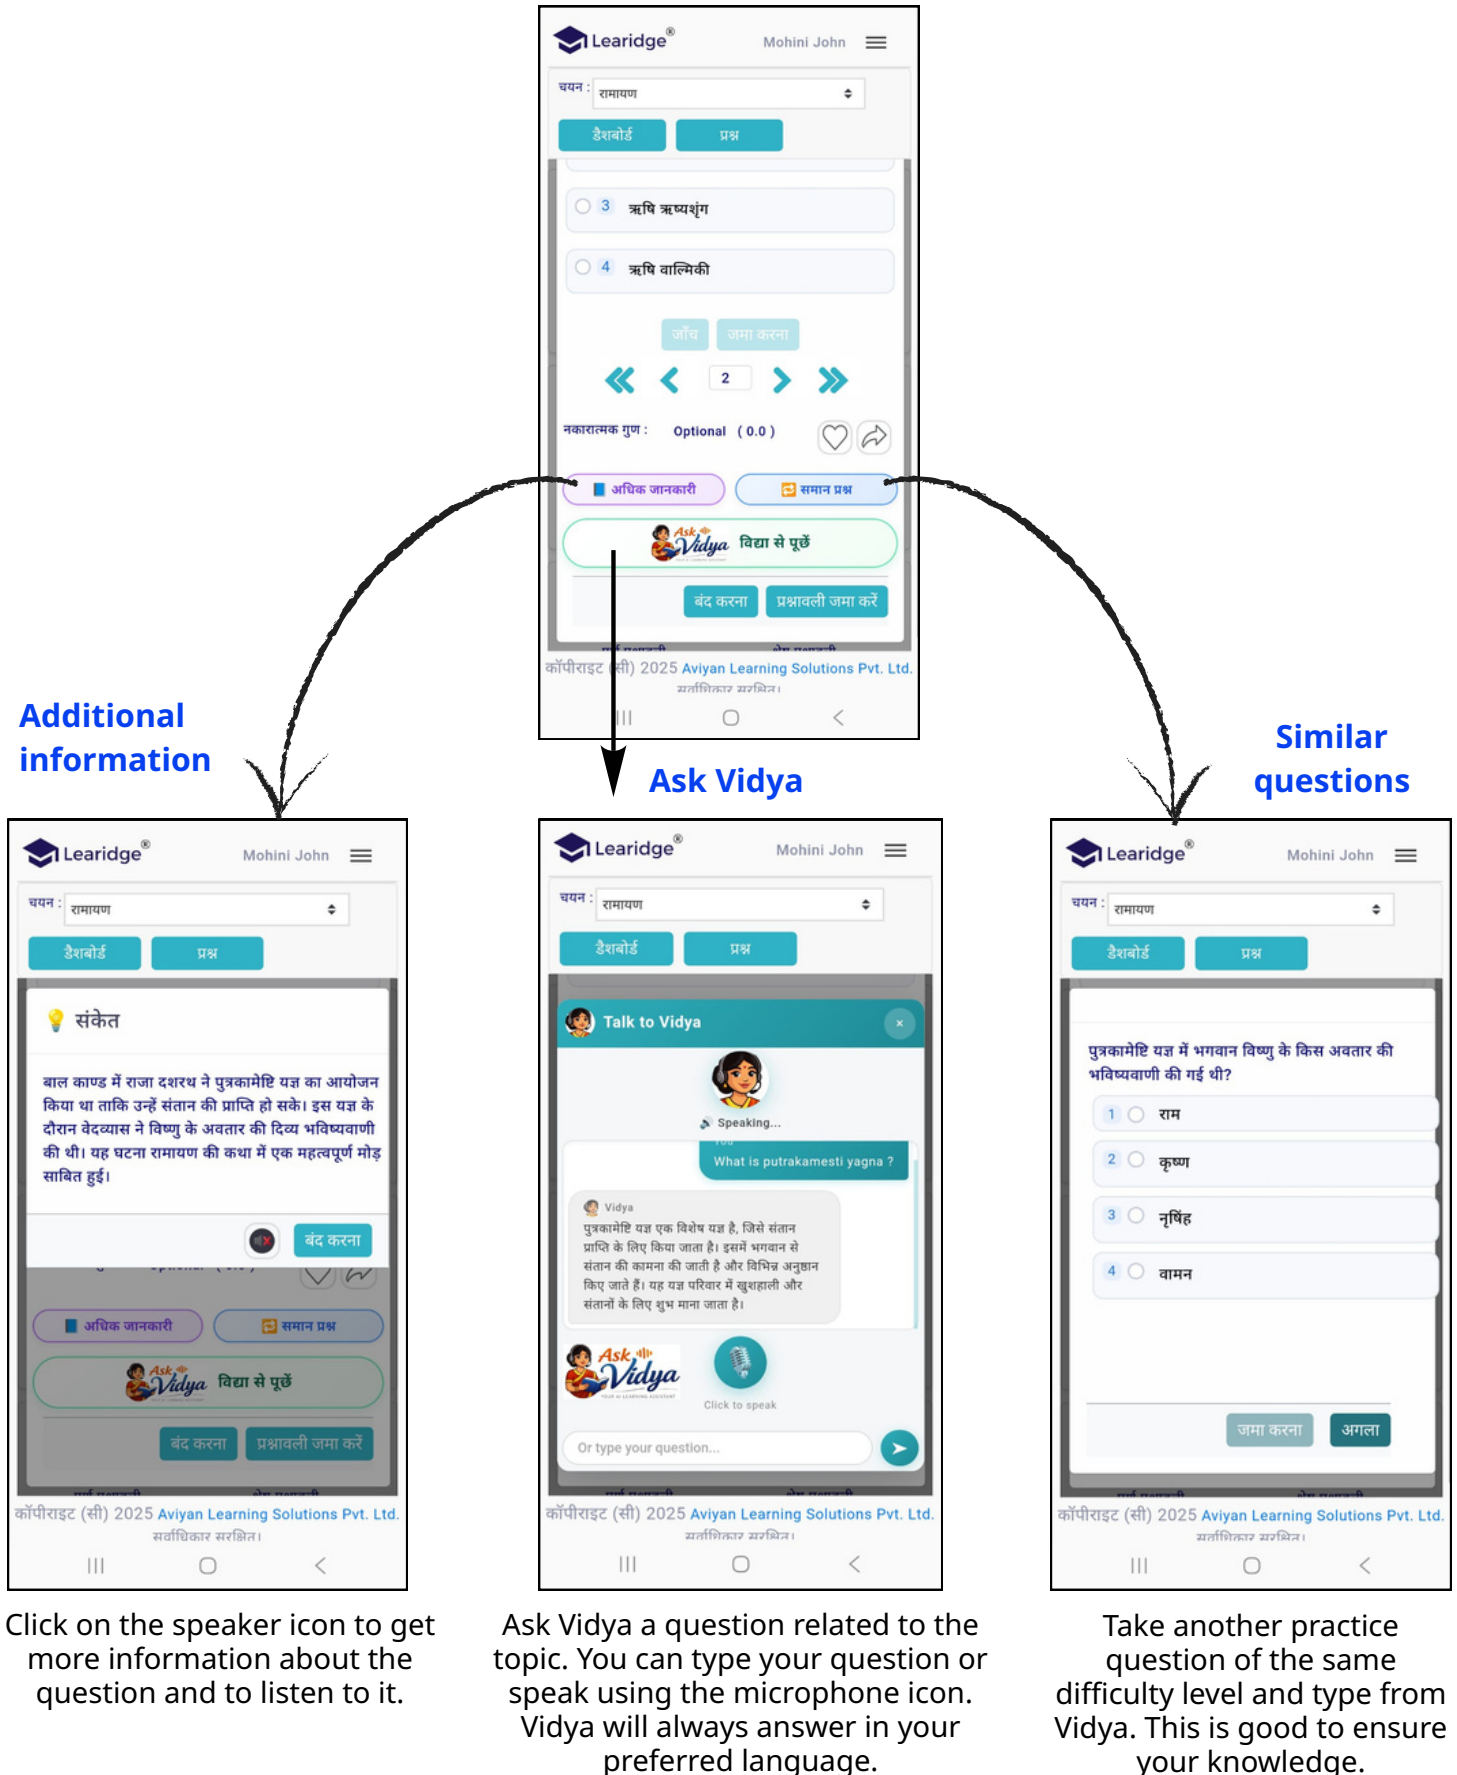

The remaining questions in the questionnaire can be answered later.

You can submit the completed questionnaire by answering all questions and checking them; no changes can be made to the questionnaire after it has been submitted.

Confirm the answer and solve the next question.

AI - Artificial Intelligence

How to use AI

Track your progress

You will see your progress report immediately after logging in to Liridge - The Learning Bridge.

Determine the period for which you want to know the progress and select 'Go'.

Here you will see the number of questions you solved, the percentage of correct answers, and your grade. The grade is determined based on the percentage of correct answers.

This graph shows your progress by month. It shows the average percentage of correct answers given over a month.

This will help you keep track of your progress over a period of time.

Pay attention to your progress.
